

Complino exchange rules

Dear new member

Thank you for signing up to the Complino timebank community. From now on you can swap benefits or offers over the Cyclos Online timebank system. Also you can use our services at the Complino counter to get barter slips from your account.

If you like, we can provide a support from an employee or an employee of the Complino as godfather or godmother during the first months. They will help you find out, how the Cyclos time-sharing application works.

The user fee will be charged monthly in units of time of 0.13 hours from your time account. Within a year the sum of the fee, is total 1.5 hours, this amount you have to compensate over the years with your own services that you offer for other members.

All exchange business you can manage over the Cyclos-time exchange system. You can also:

- Add, for the service that you offer or are looking for. All of these advertisements appear when you want it, in the newspaper and marketplace on the Complino Homepage
- Searching people, products and services you are looking for
- Receive or make payments. All payments are directly credited to the account or charged to the respective exchange partners and are evident in the time bank
- You can also withdraw time vouchers and jetons for coffee from your account
- Sending or receiving messages to or from other members
- Providing references to other members. These ratings are visible to all members of the system.
- Every last Thursday of the month there is a swapping party (Tauschhöck). Here you can get to know other members, talk about your experiences with the barter agreement or of course making new exchanges or swaps.

So! Welcome to the Complino community and have lots of fun and success in your exchanges and business live.

Office (Cyclos Administration) operating group of Complino

P.S.

Before you start you should put in Cyclos under "Notifications / News Assistant" / „Benachrichtigungen / Nachrichtenassistent „ <E-Mail> all items checked. An exact instructions can be found in the cyclos manual at www.complino.ch in the download area.
